

MUTUAL WILL IS MADE BY COUPLE

INSTRUMENT DRAWN BY MR. AND MRS. J. O. HELFRICH ADMITTED TO PROBATE.

Following Death of Wife All of Property Is Left Husband—Provision for Relatives Made.

A mutual will, an instrument very rarely used in the matter of bequeathing property was made by Johann Otto Helfrich and his wife, Mrs. Marie Helfrich of this city. Following the death of the latter it was filed for probate and yesterday afternoon passed upon by Judge H. S. Bell.

Mrs. Helfrich passed away some time ago. On February 3, 1911, the will was made, the husband and wife agreeing that when one died the property was to go to survivors and in this case it passed into the hands of the husband.

The will further directs that the survivor be made executor without bond. It also sets forth that at the death of the survivor, the property left to him or her, through the will and all other that may have accumulated, be divided into two parts.

To Relatives of Both.

One-half is to pass into the possession of Joseph Helfrich, of Alsace, Germany, a son of Mrs. Helfrich by a former marriage.

The other half is to be equally divided to three brothers of Mr. Helfrich, Karl, Michael and Philip. In this manner relatives of both the husband and wife share the property after both have passed away.

Another will was admitted to probate by Judge Bell yesterday afternoon. It was that of John T. Brundt, Moline, and bequeaths all of the property to the wife, Elizabeth. It was dated Aug. 11, 1906.

HUGE 75 MM. SHELL THROWS CARCASS OF HORSE UP IN A TREE

Few people realize what great power there lies in the modern shells and explosives. This unusual picture vividly tells what an enormous amount of destruction a shot from one of the French 75 mm. guns is able to accomplish. When this horse was struck by the shell the force of the shot cut the animal in two and lifted the fore half of the carcass into the tree, as shown in the photo.

LOCAL PUPILS TO BECOME TEACHERS

SEVENTEEN OF GRADUATING CLASS AT HIGH SCHOOL WILL TAKE EXAMINATIONS.

Seventeen survivors of the Rock Island high school will take examinations to become teachers following graduation, according to statements made by Miss Lou M. Harris, county superintendent of schools.

Miss Harris declared that such was the information given her by A. J. Burton, principal of the local high school. It is expected that the test will be taken by the largest class in the history of the county and 40 or more are expected to enroll. It is thought that the graduating class of the Moline high school will contribute a number equaling that of Rock Island.

Miss Harris went to Coal Valley this afternoon where a mothers' club is to be organized. Dr. W. E. Taylor will accompany her and will make an address.
